Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1903 Excerpt: .the mouth of the womb has not dilated sufficiently to allow the foetus to start, or the other surrounding tissues have not sufficiently relaxed. TREATMENT OF HURRIED, OR TUMULTUOUS LABOUR.-- In the majority of cases, amendment is ensured by diverting the animal s attention, walking it about for a short time, whisking the belly gently, and keeping it in a quiet, dark place. If, however, the pains are violent, and the agitation great and persistent, give to the Mare and Cow half ounce doses of chloral hydrate and repeat the dose in half an hour if necessary. The chloral hydrate may be given in draught, or as rectal injection--the injection is generally preferable. Blankets wrung from hot water should be applied to the loins and belly. Frequently good results are produced by injecting tepid water into the vagina. If the mouth and neck of the womb are...
