The VA operates one of the nations largest health care delivery systems. Charged with addressing the issues of increasing medical demands and aging medical facilities, VA currently manages the construction of 50 major medical-facility projects, each costing at least 10 million, some in the hundreds of millions of dollars. As requested, GAO examined VAs management of such projects. GAO reviewed (1) changes to costs, schedule, and scope for selected new medical-facility construction projects and (2) actions VA has taken to improve management and any opportunities that exist for VA to improve its management of costs, schedule, and scope of these construction projects. GAO analyzed documents, VA data as of November 2012 on selected major construction projects, and interviewed VA officials, architecture and engineering, and construction firms. Costs substantially increased and schedules were delayed for Department of Veterans Affairs (VA) largest medical-center construction projects in Denver, Colorado; Las Vegas, Nevada; New Orleans, Louisiana; and Orlando, Florida. As of November 2012, the cost increases for these projects ranged from 59 percent to 144 percent, with a total cost increase of nearly 1.5 billion and an average increase of approximately 366 million. The delays for these projects range from 14 to 74 months, resulting in an average delay of 35 months per project. In commenting on a draft of this report, VA contends that using the initial completion date from the construction contract would be more accurate than using the initial completion date provided to Congress; however, using this date would not account for how VA managed these projects prior to the award of the construction contract. Several factors, including changes to veterans health care needs and site-acquisition issues contributed...
