## Kids: How Biology and Culture Shape the Way We Raise Young Children

By Meredith F Small

Anchor Books, United States, 2002. Paperback. Book Condition: New. Reprint. 201 x 130 mm. Language: English . Brand New Book. To what extent do our parenting practices help or hinder our children? As parents, how much influence do we have over what kind of people our children will grow up to be? In the follow-up to her critically acclaimed *Our Babies, Ourselves*, Cornell anthropologist Meredith Small now takes on these and other crucial questions about the development of preschool children aged one to six. While *Our Babies, Ourselves* explored the physical and cultural preconceptions behind child-rearing and offered new clues to parenting practices that might be detrimental to a baby's best interest, *Kids* delves even deeper. Unraveling the deep-seated notions prescribed in most parenting books, *Kids* combines the latest scientific research on human evolution and biology with Small's own keen observations of various cultures for a lively, eye-opening view of early childhood in America. Small not only reveals how children in this age group socialize and absorb the rules that underlie the societies they live in; she also explains the extent to which parents enhance or hold back the emotional and psychological growth of their kids. In her...
