

Science Volume 13

By American Association for Science

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: .190 pounds. The result of one of the trials was an available horse-power for 2.08 pounds of coal per hour, --a remarkable result, considering the size of the engine. These results show, that, as far as cost of fuel alone is considered, a horse power hour from a gas-engine, with gas at \$1.50 per thousand feet, would cost 3.75 cents; and from a Davy-Paxman engine, with coal at \$4 per ton, .8 of a cent. Accumulators.--Judge Coxe has just rendered a decision in the United States Circuit Court for the southern district of New York, in which the Faure patent for improvements in secondary batteries or accumulators is held to cover any secondary battery in which an electrode is used having the so-called active material applied in the form of a paint, paste, or cement. The suit is entitled The Electrical Accumulator Company vs. Julien Electric...
