We live in an age. is the information age. information flow is the most valuable thing of this era. it covers almost every corner of the world. In such an era. the language is even more important. especially in today s rapid economic development period. between China and other countries are becoming increasingly close. English as the language of the most important communication tool. but also more and more people attention. However. if you have experienced this scenario: eager to see the foreigners wanted to communicate with each other to improve the level of spoken language. so the standard classic dialogue blurted out: Hi. Nice to meet. You. How are you? I m fine. Thank you. and you? next rack their brains to think and chat with other foreigners the problem. but I could not find the proper English to express. anxious. can only let this golden opportunity to exercise in anxious impatience spoken in the slip. The main reason for the above phenomenon is that we usually only read...
