

## Visions of Mind: Architectures for Cognition and Affect

By Darryl N. Davis

Information Science Publishing. Hardcover. Book Condition: New. Hardcover. 340 pages. Dimensions: 10.2in. x 7.2in. x 1.0in. What is mind Can we build synthetic or artificial minds Think these questions are only reserved for Science Fiction Well, not anymore. This collection presents a diverse overview of where the development of artificial minds is as the twenty first century begins. Examined from nearly all viewpoints, Visions of Mind includes perspectives from philosophy, psychology, cognitive science, social studies and artificial intelligence. This collection comes largely as a result of many conferences and symposiums conducted by many of the leading minds on this topic. At the core is Professor Aaron Slomans symposium from the spring 2000 UK Society for Artificial Intelligence conference. Authors from that symposium, as well as others from around the world have updated their perspectives and contributed to this powerful book. The result is a multi-disciplinary approach to the long term problem of designing a human-like mind, whether for scientific, social, or engineering purposes. The topics addressed within this text are valuable to both artificial intelligence and cognitive science, and also to the academic disciplines that they draw on and feed. Among those disciplines are philosophy, computer science, and psychology. This item...

### Reviews

*This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You wont sense monotony at at any time of your time (that's what catalogues are for relating to should you request me).*

*-- Jaqueline Kerluke*

*I just started looking at this pdf. It can be rally fascinating throug studying period of time. Its been printed in an extremely basic way and is particularly only following i finished reading through this publication where in fact altered me, change the way i really believe.*

*-- Mr. Stephan McKenzie*
