

The Unicorn: A Mythological Investigation (Dodo Press)

Filesize: 8.09 MB

Reviews

It is straightforward in go through easier to recognize. I actually have study and that i am sure that i will going to study yet again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Jaclyn Johns DDS)

Dodo Press, United Kingdom, 2008. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This little brochure is a contribution, however humble, to the science of psychology; not merely a notice of curious, still less of idle, fancies. The study of man to be successful must commence with his earlier, that is to say, simpler, phases. The solar myth, vaguely so called, is often ridiculed but never by anyone who has carefully examined it; and the history of the Lion and the Unicorn exhibits one aspect of the ideas of Time and Kosmic Order as shown in the most obvious divisions of period-Day and Night. The indirect influence of our present civilization and the repetition of phenomena produce a sadly deadening effect upon the vast majority of minds as regards appreciation of the external world, and render it extremely difficult for us to place ourselves near the mental standpoint of primitive, or even of archaic, man.
